Education

Arid Agriculture University Uiit

2023 – 2027

Bachelor of Software Engineering

Rawalpindi, Pakistan

Relevant Coursework

- Web Development
- Software Methodology
- C++
- Database Management
- Artificial Intelligence
- Information Technology
- software Requirements
- Computer Networking

Projects

Personal Portfolio | *HTML, CSS, JavaScript*

April 2026

- Designed and developed a professional, responsive portfolio website to showcase technical projects and experience using a mobile-first approach.
- Implemented complex CSS layouts including Flexbox and CSS Grid to ensure 100% cross-browser compatibility and fluid responsiveness across all device sizes.
- Integrated interactive UI components such as modal windows for project details and a dynamic contact form with custom validation.
- Optimized web performance and accessibility, utilizing smooth-scroll navigation and customized SVG iconography for a modern user experience.

Tour Management System | *C++, File Handling, OOP*

March 2026

- Engineered a data-driven system in C++ using **fstream** libraries to manage persistent storage for customer bookings and tour packages.
- Designed a custom file-based database system to perform **CRUD operations** (Create, Read, Update, Delete) on external .dat/.txt files.
- Implemented efficient data parsing and formatting logic to ensure structured data retrieval and prevent file corruption during high-volume entries.
- Applied Object-Oriented Programming to map real-world entities to code, using file streams to serialize and deserialize class objects.

Technical Skills

Languages: Responsive Web Design Html, CSS , C++ , JavaScript , SQL , UI/UX Design

Developer Tools: VS Code, Figma , zap proxy

Technologies/Frameworks: Kali Linux, GitHub, WordPress
